

## Rinse And Repeat

The Dodos

With your back to the wall  
And your face isn't turning  
Are you throwing me off  
The weight on your shoulder?  
And the sound of it all  
Disappeared in the yearning  
It's a troubling love  
That we give to each other

Don't let your mind reset  
I'm not ready  
For what I need to find  
Hold everybody still  
I'm not waiting  
For moments to arrive

Fear you can't escape  
Are you headed down the road?  
You know for sure I feel the same  
Are you ready, if only for another day?

Was looking for us  
Lost in the border  
Afraid that it's not  
How it was in the photo  
Petition is on  
And it's tumbling over  
It's a troubling love  
That we give to each other

Don't let your mind reset  
I'm not ready  
For what I need to find  
Hold everybody still  
I'm not waiting  
For moments to arrive

Fear you can't escape  
Are you headed down the road?  
You know for sure I feel the same  
Are you ready, if only for another day?  
You can't escape  
Are you headed down the road?  
You know for sure I feel the same  
Are you ready, if only for another day?
