

## Slowburn

The Dodos

How long has this felt ordinary?  
Do you see me still? Am I steady?  
I leave you to say what I didn't  
The stories that we wrote turned out different

How long will this burn?  
Hang on to every word  
How long will this burn?  
Hang on to every word  
Will we ever watch it heal?

I heard that you were getting married  
I thought I could help get you ready  
Some stories that you wrote turned out different  
How long will this burn?  
Hang on to every word  
Your worries and your hope somehow didn't  
How long will this burn?  
Hang on to every word

Look up, see if I'm there  
Whatever gets us past this  
Look up, see if I'm there  
Whatever gets us past this  
Look up, see if I'm there  
Whatever gets us past this  
Look up, see if I'm there  
Whatever gets us past this
