

## The Current

The Dodos

Bought you 80 steps  
While plagued with mine  
Habits die hard, we're wasting time  
The precious undercurrent through all this talk  
The cracking of the crust, it surrounds my will, surrounds my t  
rust

Struggle with love, it's all a fight  
To please the old, the secondary  
To hope this love will free myself  
I hope this love will free myself

I wait for the silence  
But it never came  
Foreseeing my thoughts  
Do I see it?  
And while the noise continues  
So wrongful of the focus  
To process all the words to be  
Put out my name, more names to come

Struggle with love, it's all a fight  
To please the old, the secondary  
To hope this love will free myself  
I hope this love will free myself

If this love comes on to me  
I'm with it, I'm with it  
If this love comes on to me  
I'm with it, I'm with it  
If this love comes on to me  
I'm with it, I'm with it  
If this love comes on to me  
I'm with it, I'm with it
