

No, no
No, no
No, no
No, no
Hey baby, baby
Whatcha want? You're calling me
Dumb standing around
The lunch truck so greedily
Hey baby, baby
Just another dog I see
Rolling in the dirt
You're barking up the wrong tree
So maybe you're crazy
Never get a bone
Ooh, you're just too much man for me
Yeah, maybe you're crazy
Never catch me
You can't make me
Had enough
I've had enough
Cat, cat calling
And I just don't care
Cat, cat calling
So I'm out of here
No, no, never gonna hear you
No, no, never to be near you
Never to be near you
Hey baby, baby
Whatcha want? You're stalking me
Bang, bang, you're hammer
Caveman sensibilities
Hey baby, baby
Acting out a fantasy
I'll get you so bad
You're crying for my sympathy
