

## Love You Most

The Dollyrots

Tonight's the night  
You said you'd tell me that you love me  
And though I try  
I can't believe that you'll still love me  
Enough's enough don't know that past tonight I'll be your one

The dead flowers  
You left upon my doorstep sweetly  
Should I reply  
With gentle kisses oh so sacredly  
Enough's enough don't know that past tonight I'll be your one

Chorus  
You tell me your is more than, more than  
Mine, although, I know that  
I love you most  
Wish I could deny  
I love you most  
Wish I could deny I love you

And on my neck  
The bite you left has started bruising  
So go ahead is it my fear or you I'm losing  
Enough's enough don't know that past tonight I'll be your one

You tell me your is more than, more than  
Mine, although, I know that  
I love you most  
Wish I could deny  
I love you most  
Wish I could deny I love you
