

Rollercoaster

The Dollyrots

Byron says he's gonna get right out of here
Moving west and driving through the night
Figuring he'll find his place once he gets there
Grass is always greener if you try

And Katie, she's got plans,
Five boots and passport in her hands
Not knowing what's coming
She'll look back from the promised land

Get in line, step up and let's go

Falls up down again and the rollercoaster ride begins
We don't control, we just give in
Coz the rollercoaster never ends

Wow, oh, ended up where I began

Graham followed a girl to Minneapolis
Stuck it out through everything, despite
Turning back and triple rock for shows with us
She's his girl and he's her Mr. Right

And maybe, you've got plans
You've got the guts to see them through
Don't forget where you're from
Is where it all comes back to you

Get in line, step up and let's go

Falls up down again and the rollercoaster ride begins
We don't control, we just give in
Coz the rollercoaster never ends

Wow, oh, ended up where I began

And maybe, you've got plans
You've got the guts to see them through
Don't forget where you're from

Falls up down again and the rollercoaster ride begins
We don't control, we just give in
Coz the rollercoaster never ends

Ended up where I began
