

Party Action

The Donnas

You're hot and you're not
I'm just here to call the shots
I'm pickin' favorites, it's my favorite game
I'm weeding out the boring and the lame

Act tough and play rough
I'm about to stir things up
This party started out so PG-13
I think it needs a little rock 'n' roll machine

Action, I want some attraction
I need some distraction
I'd like some party action

Action, I want some attraction
I need some distraction
I'd like some party action

He's fine and it's time
You think he's yours, but he's so mine
I saw his football moves and I knew he was right
Looks like you'll need another ride home tonight

Action, I want some attraction
I need some distraction
I'd like some party action

Action, I want some attraction
I need some distraction
I'd like some party action

I'm glad that you're so mad
I've got what you thought you had
I unwrapped him from your finger
And we just turned off the ringer

He's here and you're there
You might think that it's not fair
Well, it sucks for you, but I can't complain
You've got the chow mein and I've got the champagne

Action, I want some attraction
I need some distraction
I'd like some party action

Action, I want some attraction
I need some distraction
I'd like some party action

Some party action
I'd like some part action, baby
Some party action
