

## Tune Up

## The Dramatics

Once we shared a dream  
A dream of lasting love  
And how sweet it would be  
Somewhere along the way  
Somehow we lost that love and harmony  
And now when we kiss  
The bells of love no longer ring  
And outside my window, baby  
Even the birds refuse to sing

Yeah, we got to have a tune up  
Shift our love back into motion  
We got to have a turn up, oh yeah  
Regulate those mixed emotions

And I know we can still communicate  
Those sparks of love we can still generate  
We've got to tune up sure enough  
Bring back the love and harmony  
We've got to tune up all right  
Let night just sing those melodies

Remember how the wind  
Used to play through the trees like a violin  
Oh nature has her way  
Of serenading love that's happy and free  
But now the end has become a raging storm with thunder  
And if we just stand by, what's left of love will surely die

Yeah, we got to have a tune up  
Shift our love back into motion  
We got to have a turn up, oh yeah  
Regulate those mixed emotions

Believe me when I say  
I know we can face stormy weather  
If we just put our two hearts together  
We've got to tune up all right  
Shift those love gears back into motion

Rolling, rolling, rolling (Rolling, rolling)  
Regulate those mixed up emotions  
Tune in up, it ain't too late
