

I think it happened on a Saturday
I heard the phone ring, ding, ding
Who this? 'Vine yo...
Wise guy killed last night by the Tracks,
It was the same who our niggas teeth up
Sent 'em back, we shoulda thrilled a long time ago
We went this recording, now we owe
The devil slit trough, without an intro
Yo 'Vine, it can't be!
Wise guest-starring me
Can it be, we both got hit
God legendary, he and General
He survived A-dog,
Hard to even picture god eaten by gray dogs
He stayed in his world
And he sidely

But I wanna go outside, in the rain...
