

Angel Inside

The-Dream

I'll let you know
All that's on my mind
It has, a little time
And I'll be sure
To tell you everything
I've been holding in, for so long
Oh yea yeah

Everyday thinking 'bout your face
I can't wait, to tell you the truth
(Tell you the truth, yeah)
I figured out
Where this feeling is coming from
And my finger's pointing right at you
(Oh you make me feel so good)

You make me feel like an angel inside
Something that I can't hide, no more
(That I can't hide, no more)
And if this feeling goes away
I would cry (I would cry)
If you wanna know why
(Wanna know why)
Cause you make me feel good inside

So what's the deal
What I feel is real
I don't have to say no more (Let's go)
Just hold my hand
Say you understand
We can be together forever
Baby...

[Puff Dady :] I like this part right here

Everyday thinking 'bout your face
(Everyday I think about)
I can't wait, to tell you the truth
(Wait to tell you the truth)
I figured out (oh yeah)
Where this feeling is coming from (yes I did)
And my finger's pointing right at you
(Oh you make me feel so good)

You make me feel like an angel inside
(Yes you do, yes you do)
Something that I can't hide, no more
(I don't wanna hide it anymore)
And if this feeling goes away
I would cry (I will if you)
If you wanna know why
Cause you make me feel good inside
(I wanna let you know)

I wanna let you know
What I feel right now (right now)
Everywhere you go
I just want to be around
(Wanna be around)
If you only knew (If you knew)
What I think 'bout you (oh...)
Maybe then you'll see
(Then you'll see)
You need me, baby need

You make me feel like an angel inside
(Yes you do boy)
Something that I can't hide, no more
(Can't hide it, I can't hide it)
And if this feeling goes away
I would cry (goes away)
If you wanna know why (wanna know why)
Cause you make me feel good inside
(You make me feel so good)

You make me feel like an angel inside
(Yes you do)
Something that I can't hide, no more
(I just can't hide it no more)
And if this feeling goes away
I would cry [Bad Boy baby]
(No, no, no)
If you wanna know why

Cause you make me feel good inside

You make me feel like an angel inside
Something that I can't hide, no more
(Can't hide it, I can't hide it)
And if this feeling goes away I would cry
If you wanna know why...
