

## Fruition

The-Dream

I'm always lost deep in your eyes  
You can tell me a million lies  
And I'd believe it, I'd listen thoroughly after time  
Cause getting away with loving you is already my crime  
You make me wanna do what I'm supposed to do  
Once a choosy lover now they don't compare to you  
I'll do whatever always come back to me  
Holding you close, loving you endlessly

It's so hard to find someone like you  
I've searched under stars and many a moons  
Just to find someone like you  
Ooh, ooh

Say whatever you want, you're in charge  
I'll be right here when you need me, I won't barge in  
Take your time, I won't be far  
As long as I'm close to where you are  
When I'm with you, I'm out my world (my world)  
I'm in awe, you're my girl (my girl)  
What did I do to deserve this thing  
I'm holding you close, loving you endlessly (endlessly)

Cause it's so hard to find someone like you  
I've searched under stars and many a moons  
Just to find someone like you  
Some dreams can come to

Fruition, yeah  
Fruition, yeah  
Me and you, baby  
Fruition  
Now that I got you I'm never letting you go

So hard to find someone like you  
I've searched under stars and many a moons  
Just to find someone like you

It's so hard to find someone like you  
I've searched under stars and many a moons  
Just to find someone like you

It's so hard to find someone like you  
I've searched under stars and many a moons  
Just to find someone like you

Some dreams can come to  
Fruition, fruition
