

How Long

The-Dream

There's a place in my heart
That I go when I dream
A place that nobody can see
Every night I see love
I see someone who's waiting
Waiting for someone like me
He must be out there
Somewhere, someone for me

Tell me how long
'Till I'm not just dreaming
How long, 'til somebody cares
How long, 'til I meet an angel
And give him my heart,
When can I start
How long 'till I fall in love

I sit every night
By my window just wishing
And searching for one perfect star
Can anyone hear me
Dunno if you're listening
Please send him right here
To my arms
He must be out there
Somewhere, waiting for me

Tell me just how long, will it be...

Tell me how long
'Till I'm not just dreaming
How long, 'til somebody cares
How long, 'til I meet an angel
And give him my heart,
When can I start
How long 'till I fall in love

I've always believed
That my dreams would come true
That one of these nights
He would appear
He'd be here in my arms
I see it all, so clearly
How it could be
I wish he was kissing me now...

Tell me how long (how long)
'Till I'm not just dreaming
How long, 'til somebody cares ('til somebody cares)
How long, 'til I meet an angel (my angel...)
And give him my heart (heart...)
When can I start
How long 'till I fall in love (in love...)

How long 'till I fall in love...
How long 'till I fall in love...
How long 'till I fall in love...
