

Kill The Lights

The-Dream

Girl you're so wonderful
Hold me never let go
I love you like that
What we got phenomenal
I'll go wherever you want to go
I love you like that

Kill the lights
Kill the lights
Kill the lights
Kill the lights
I wanna set fire to the darkness
I wanna lay flames right where your heart is tonight
Kill the lights
Kill the lights

Take my hand lover
There'll be no other
I love you like that
Let me take it from here

Talk that shit
Rock me
Back and forth and now
Let me love you back
Ooohhh

Kill the lights
Kill the lights
I wanna set fire to the darkness
I wanna lay flames right where your heart is tonight
Kill the lights
Kill the lights

Lay your hand on me
Put your heart there on me
Let the fire take us away from here
Ignite us
Don't let them divide us
Every kiss
Every touch
Girl I love you so much
Baby kill the lights
Kill the lights
