

Nothing Will Feel the Same

The-Dream

Nothing will feel the same
Without you
The love I feel was vague
Without you
So girl come back and hold me close
And don't let me go
I don't feel the same without

Nothing will feel the same
Without you
The love I feel was vague
Without you
So girl come back and hold me close
And don't let me go
I don't feel the same without

Yeah
Now who you been with
And who you can say
Somebody is missing
It's hard to deal with in my mind
'Cause I know you're somewhere doing just fine
Yeah yeah
But I won't stop wishing
Or abort the mission
I know love was ruining my life
I hope it's a phase that's upside
'Cause I can't bear the thing that you may never ever come back
It's hard to accept that we maybe all for nothing
Shorty you're bugging
Even our mutual friends are out and turn south
They're telling me to let you go
But I've got nothing left
Just the pain and hear that you're with someone else

Nothing will feel the same
Without you
(I don't feel the same)
The love I feel was vague
Without you
So girl come back and hold me close
(Hold me close, hold me close)
And don't let me go
I don't feel the same without you
Without you

I miss your body right here, huh
Beside me
And beside you I had no fear
And without I'm not me
I keep on playing it
Back back back back back
Time after time
I answered every questions
But still I don't see why
Girl at least call a nigga
(Bitch)

Call a nigga
Trying keep my composure
But I need closure
You may be gone but to me it wasn't over

Nothing will feel the same
Without you
(I don't feel the same)
The love I feel was vague
Without you
So girl come back and hold me close
(Hold me close, hold me close)
And don't let me go
I don't feel the same (I don't feel the same)
Without you
Without you

Let it ride ride ride ride
It's har but I gotta
Let it ride ride ride ride
Sometimes you gotta
Let it ride ride ride ride
I don't want to
Let it ride ride ride ride
