

# Super Soaker

The-Dream

How, how, how deep, deep, deep do you want it?  
How, how, how deep?

Yeah, fuck, nigga  
We don't ever ever check the time  
I just sit back and let it grind  
This is my shit, and she got her own shit  
So we do it whenever, however  
Wherever we motherfuckin' want it  
From the sofa to the counter to the bed  
Man, this shit go deep, uh  
Outside, let it ride, and she ride that shit like Jeep

She got that freak of the week, yep  
She got that super soaker  
She hide that freak underneath, yeah  
You gotta get to know her  
Now that we've had some time  
Now that we've passed some time  
Know what's been on your mind  
Before we start to grind  
How deep do you want it?  
How deep? How deep?  
Man, I'm finna do it for the culture  
How deep do you want it?  
How deep? How deep? Uh  
Shawty, I'ma do you for the culture  
How deep?

You want it rough, nice and slow  
The only time I hit a girl is from the back  
And the only time I slap a bitch is on the ass, yeah  
Let that body roll, yeah  
All you gotta do is ask and I'll give it to you  
Stop sittin' on that pussy, girl, give it to me  
See, we up in the master, the roofs off this bitch  
And we out in the Benz and the Coupes off this bitch  
Now you up in the booth, told the booth off this bitch  
Yeah yeah yeah  
Up in my ear talkin' that shit  
I'm like, "Girl, your pussy's the fattest, your body's the baddest"  
And I been the baddest since my mama had me  
But she never had me, she callin' me Daddy

She got that freak of the week, yep  
She got that super soaker  
She hide that freak underneath, yeah  
You gotta get to know her  
Now that we've had some time  
Now that we've passed some time  
Know what's been on your mind  
Before we start to grind  
How deep do you want it?  
How deep? How deep?  
Shawty, I'ma do it for the culture  
How deep do you want it?  
How deep? How deep? Uh

Shawty, I'ma do you for the culture  
How deep do you want it?

We gon' take a quick intermission right here  
We'll drop the motherfuckin' kicks  
The hi-hats and the snare

She said she wasn't lookin' for a long time  
Only for a good time, only for a good night  
She just got a promotion  
She just got a Tesla, she focused  
But now she like, now she like  
"Don't fuck nobody but my body, nobody," oh yeah  
Don't fuck nobody but her body, nobody (Oh yeah)  
Now she like, don't fuck nobody but her body  
She means nobody, yeah

She got that freak of the week, yep  
She got that super soaker  
She hide that freak underneath, yeah  
You gotta get to know her  
Now that we've had some time  
Now that we've passed some time  
Know what's been on your mind  
Before we start to grind  
How deep do you want it?  
How deep? How deep?  
Shawty, I'ma do it for the culture  
How deep do you want it?  
How deep? How deep? Uh  
Shawty, I'ma do you for the culture  
How deep do you want it?  
How deep? How deep?  
Shawty, I'ma do you for the culture
