

Peeps with the Goods

The Dreggs

Oh is this a test
If only strength would honour it
Being enough, my heart
Its rugged its been through so much
There's nothing left
The damage done has worked its way into my love
I would care, if you could just see the best part of me

Its elation
You're my promise
And I'll see it through
Don't give a damn about it
Your selfish ways are growing old
You never showed me love, you never showed me love

All of my time
I've dedicated to work this out in the end, more or less
I've been worked up and I've been let down

I now have done everything that I could
But I feel let down
By the wolves in the woods
The peeps with the goods
The movers and shakers

Now I'm nervous but I'm ready
And I'll love you more
And I'll dance for free
Your selfish ways are growing old
You never showed me love, you never showed me love
Now I'm nervous but I'm ready
And I'll love you more
And I'll dance for free
Your selfish ways are growing old
You never showed me love, you never showed me love
