

We Don't Talk

The Dreggs

Pick up the phone cause I'm coming over
I missed your call while I'm sitting at the traffic lights
Could this drive be any slower
Could my vibe be any lower
You never know until you run out
It's gonna wait till you find out
Should have told me you were leaving
I was just too late

When you're alone, does it help you unwind
When we're together, does it make you uptight
I wanna know
Just how you feel
Can we make it right

We don't talk
We don't listen
We won't realise
Nothing solved
Nothing ventured

You only love me in the evening
When it's lonely through the night
You never show me how you're feeling
While we're dancing in the morning light
I never see you feeling sorry
In the wake of a fight
I wanna know
Just how you feel
Can we make it right

Put down the phone, it's effecting your mind
Tear down the walls that are helping you hide
Are we thinking fast
Are we gonna last, oh
You never know until you run out
It's gonna wait till you find out
I wanna know
Just how you feel
Can we make it right

We don't talk
We don't listen
We won't realise
Nothing solved
Nothing ventured

You only love me in the evening
When it's lonely through the night
You never show me how you're feeling
While we're dancing in the morning light
I never see you feeling sorry
In the wake of a fight
I wanna know
Just how you feel
Can we make it right

You only love me in the evening
When it's lonely through the night
You never show me how you're feeling
While we're dancing in the morning light
I never see you feeling sorry
In the wake of a fight
I wanna know
Just how you feel
Can we make it right
