In the Land of Make Believe

The Drifters

In the land of make believe You're mine tonight although you are far away In the land of make believe I'm holding you tight

The silver moon is shining above
And there's love in your eyes
And I'm kissing you like I used to do
Yesterday in paradise

I've been livin' in the land of make believe Since you've been gone I need you so much that without your love I must deceive myself to go on

Your loving hand caresses my face We embrace tenderly Never will we part, deep down in my heart You are always here with me

You are always here with me In the land of make believe In the land of make believe In the land of make believe

Your loving hand caresses my face We embrace tenderly Never will we part, deep down in my heart You are always here with me

You are always here with me In the land of make believe In the land of make believe In the land of make believe In the land of make believe
