

# Like a Movie I've Seen Before

The Drifters

Oh, babe  
It's just like a movie I've seen before  
I can get the picture right now  
The grass is looking greener over there  
Oh babe  
You won't be depending on me more  
But I know you'll make it somehow  
The big scene comes when you walk right out the door  
Like a movie I've seen before

Ever since you've moved in with me  
I knew it couldn't last  
My heart was talking louder than my head  
But due the way the good Lord made you  
You've gotta move around  
Just like the stars in Hollywood  
You're looking for another bed

Oh, babe  
It's just like a movie I've seen before  
I can get the picture right now  
The grass is looking greener over there  
Oh babe  
You won't be depending on me more  
But I know you'll make it somehow  
The big scene comes when you walk right out the door  
Like a movie I've seen before

I'd do it all again tomorrow  
Though my heart's in two  
There's not a lot more I can say right now  
I guess I'm like the boy next door  
I wanna settle down  
And you're just like the country girl  
Who's gotta see the lights of town

Oh, babe  
It's just like a movie I've seen before  
I can get the picture right now  
The grass is looking greener over there  
Oh babe  
You won't be depending on me more  
But I know you'll make it somehow  
The big scene comes when you walk right out the door  
Like a movie I've seen before

Oh, babe  
It's just like a movie I've seen before  
I can get the picture right now  
The grass is looking greener over there  
Oh babe  
You won't be depending on me more  
But I know you'll make it somehow  
The big scene comes when you walk right out the door  
Like a movie I've seen before
