## **Soldier of Fortune**

## **The Drifters**

I'm known as a soldier of fortune A drifter with vagabond heart They see me each night with a new love They can't tell I'm playing a part

I'm known as a soldier of fortune A taker of love where its found They can't tell the way my hearts aching It's breaking cos your not around

Your love was mine for too short a time But if you find your new loves not true Remember dear I will still be here For me there's only you

That's why I'm a soldier of fortune
In search of new love constantly
And I'll be a soldier of fortune till you bring your love back
to me

And I'll be a soldier of fortune till you bring your love back to me
