

Somebody New Dancin' with You

The Drifters

Why must the band keep on playing
I know what my friends are all saying
They been playing our song
The whole night long yeah
And I'm over here
I'm just hiding a tear
And there's somebody new dancin' with you

Why must my love be forsaken
Oh how my poor heart is breaking
While they're playing our song
You been doing me wrong
And making a fool out of me
And our friends all can see
That there's somebody new dancin' with you

Nights are made for kissing
And nights are made for love
But my nights are just filled
With tear drops since you've gone

Oh how I keep on praying
That somehow the band would stop playing
They keep playing our song
Playing it right along
And it just drives me wild
Every time I see you smile
At that somebody new dancin' with you
