

Better

The Driver Era

What would I do without you?
Would I do without you

Just getting better, better
I'm feeling better, better
I'm getting better, better
You made me better
Better

We on time with the vibe
What it do, baby?
Can't describe on my life
It's a view, baby
And I don't wanna miss a thing
So I'm not gonna look away
Away

Bada, bing, bada, boom, bada, bop
Babe, got a thing, what it do, shit is hot
Then we explode on the low to the top
Bada, bing, bada, boom, bada, bop

Bada, bing, bada, boom, bada, bop
Got the keys to the world, what's a lock?
How we do when we roll and we rock
Bada, bing, bada, boom, bada, bop

Better, better, better, better
Better, better, better, better

Just getting better, better
I'm feeling better, better
I'm getting better, better
You made me better
Better
Better
Better
