

East, West  
Good or best  
Talk or stealth  
Stop or let  
Grow or death  
Smoke or breath

Imma tell you what I never said  
Things are still stuck up in your head  
Wanna send you another text  
Really, really wish we would've never met  
(And all the girls say)

But I like when you look at me  
And I like when you talk about me  
Show me things that I've never seen  
Wanna be with you endlessly  
Endlessly  
I could get with you endlessly  
Baby let us be (Baby let us be)

Girl you show me things  
Girl you show me things

East, West  
Good or best  
Talk or stealth  
Stop or let  
Grow or death  
Smoke or breath

Home run  
I'm on the gun  
That's all I want  
She pull my trigger  
She make me run  
Make me numb

But I like when you look at me  
And I like when you talk about me  
Show me things that I've never seen  
Wanna be with you endlessly  
Endlessly  
I could get with you endlessly  
Baby let us be (Baby let us be)

Girl you show me things  
Girl you show me things
