

Fade

The Driver Era

Ha ha ha ha-uh
Ha ha ha ha-uh
Ha ha ha ha-uh

Fifty four
Shakespeare said before
That when your beauty fades
This verse distills your truth
What you waiting for?
Take a chance for more
'Cause there are roses babe
And then there's you

Nobody ever gets closer
Life's just one big rollercoaster
At least we try
Find a good reason to wake up
Maybe it's scrambled and bacon
Is there a reason why?

It's all just gonna fade away
We're all just gonna fade one day
In hope of better times I'll wait
But do you have time to hold on with me?
With me

Ha ha ha ha-uh
Ha ha ha ha-uh
Ha ha ha ha-uh

You make it alright
A lost boy for life
In Neverland with me
And I will hold on
Until I'm not strong
'Cause this is worth forever to me

Nobody ever gets closer
Life's just one big rollercoaster
At least we try
Find a good reason to wake up
Maybe it's scrambled and bacon
Is there a reason why?

It's all just gonna fade away
We're all just gonna fade one day
In hope of better times I'll wait
But do you have time to hold on with me?
With me

We're faded it's true
We're fading too soon
We're fated it's true
We're faded it's true
We're fading too soon
We're fated it's true

Bad days make good days better
Great minds have bad days too
Bad days make good days better
Great minds have bad days too

It's all just gonna fade away
We're all just gonna fade one day
In hope of better times I'll wait
But do you have time to hold on with me?
With me

We're faded it's true
We're fading too soon
We're fated it's true
We're faded it's true
We're fading too soon
We're fated it's true
We're faded it's true
We're fading too soon
We're fated it's true
We're faded it's true
We're fading too soon
We're fated it's true
