

Fantasy

The Driver Era

You drive me crazy
I keep on waiting
For you to call on me
You know I'd set you free
From concentrating, hyperventilating
I need you to come for me
You know I'd set you free, yeah

Whisper in my ear
Tell me what I want to hear
Be like a fantasy
You do these things to me
I'm picturing your body
All up on me so sincere
Be like a fantasy
You do these things to me

Your deepest secret
You know I'd keep it
I feel your empathy
This is our destiny
I just can't shake it
I want you naked
Standing right in front of me
Fulfill my fantasy, yeah

Whisper in my ear
Tell me what I want to hear
Be like a fantasy
You do these things to me (Baby be my fantasy)
I'm picturing your body
All up on me so sincere (Baby be my fantasy)
Be like a fantasy
You do these things to me

Won't you be my fantasy?
Be my fantasy
The things that you do to me
Won't you be my fantasy?
(Won't you? Won't you?)
