

# Forever Always

The Driver Era

Take me from my ocean view  
Now what do I become to you? Ooh...  
Strip you from your numbers  
Your hot girl summer  
Face to the cold  
Does it ever get warmer?  
Maybe you're the cover  
Complacent to the stubborn  
Just keep it so clean  
And it's just for the others

Yeah, it's all for the others now

You're doing bad things  
I'm doing the same, oh  
And you want me to stay (stay, stay, stay)  
Before it's too late (late, late, late)

To forever always  
To forever always  
To forever always  
To forever always (just you and me)  
To forever always...  
To forever always... (to forever always)

Take my BMW  
You can empty out my pockets too  
And now you're wearing nothing  
There's no point bluffing  
Thinking too many times  
Sure to find something  
I have you all uncovered  
But still I wonder  
I want to be as certain  
This is all for the others now  
Oh, yeah it's all for the others now

You're doing bad things  
I'm doing the same, oh  
And you want me to stay (stay, stay, stay)  
Before it's too late (late, late, late)

To forever always (to forever always)  
To forever always

(Forever, just you and me, forever)  
(To forever always  
To forever always  
To forever always  
To forever always)

To forever always  
To forever always  
To forever always

To forever always

(Just you and me)
