

Keep Moving Forward

The Driver Era

Cans in the house now, people everywhere now
People talkin' loud with their mouth out
Don't you want to be everywhere at one time now?
Don't you want to be makin' history somehow?
I know you wanna see me fail, boy, boy, boy
Hit that, make it one time and destroy, boy
I'm in a race for space and mind
Wanna be everywhere all the time

I got to keep moving forward
There's no escapin' your thunder
I got to keep moving forward
There's no escapin' your thunder (Can't stop, I won't stop, won't stop tryin')

Send me pictures of yourself 'cause you need a little help
But you'll never get the best of me
We never even talk but you seem to never stop
So you can never get the best of me

Cans in the house now, people everywhere now
People talkin' loud with their mouth out
Don't you want to be everywhere at one time now?
Don't you want to be makin' history somehow?
I know you wanna see me fail, boy, boy, boy
Hit that, make it one time and destroy, boy
I'm in a race for space of mind
Wanna be everywhere all the time

I got to keep moving forward (What I see in front of me, I'm going there)
There's no escapin' your thunder (Don't look back or turn around, it's everywhere)
I got to keep moving forward (Chase the tail, future fail, in the air)
There's no escapin' your thunder (Can't stop, I won't stop, won't stop tryin')

Keep moving
Keep moving forward

I can't stop
I won't stop, won't stop tryin'
I've got to keep moving forward
There's no escapin' the moment

Can't stop, I won't stop, won't stop tryin'
