

Like A King

The Driver Era

If I'm just all that I think
Then I'll just think like a king
Nothing is quite like it seems
I'm not so ordinary, baby, please

We could be royalty
Dancing like we're in a dream
There's nothing like now, yeah
Young and free, I'll pick you up
We'll go dance, let's get drunk
I won't work, if I'm alone
And I'm the one, one

If I'm just all that I think
Then I'll just think like a king
Nothing is quite like it seems
I'm not so ordinary, baby, please

So why don't we find a place by the sea?
Where the stars are bright, there's a fire outside
We just rode around, found a place that we could sleep
All the people 'round will probably think we're crazy
Rollin' around, talking to trees
Handle me, please
I am the king and you can be queen
Just come follow me, like a flower and bee
We'll be forever so free

If I'm just all that I think
Then I'll just think like a king
Nothing is quite like it seems
I'm not so ordinary, baby, please
