

# The Weekend

## The Driver Era

Right now, right now  
It's for the weekend  
For the weekend

Hey, stranger  
You're on your best behavior  
But wild is your nature  
We should be running around, feet off the ground  
Head in the clouds with my fantasia  
Can't save this life for later  
I wanna try all of your flavors  
And I know you're down, so let's go right now, right now

For the weekend  
We can catch a vibe, we can catch a flight  
We don't need a why for tonight  
It's the weekend  
Just tryna say that we can fly, we can fly

Hey Fantasia  
Hey Fantasia

I can see us on the road to Mexico  
Beach somewhere nobody knows  
Let Mother Nature take control  
Get there fast and take it slow

It's funny how bad I want it, you know I can't help it  
But if I'm being honest, I can't make you any promises  
Of forever and ever, and I'm not saying never  
Let's just see what happens

For the weekend  
We can catch a vibe, we can catch a flight  
We don't need a why for tonight  
It's the weekend  
Just tryna say that we can fly, we can fly

Hey Fantasia  
Hey Fantasia  
Hey, stranger

It's funny how bad I want it, you know I can't help it  
But if I'm being honest, I can't make you any promises  
Of forever and ever, and I'm not saying never  
Let's just see what happens

For the weekend  
We can catch a vibe, we can catch a flight  
We don't need a why for tonight  
It's the weekend  
Just tryna say that we can fly, we can fly

For the weekend  
We can fly  
It's the weekend
