

## Better

## The Drums

My darling, my lover  
How I love you, how I miss you  
But my solitude loves me better than you do  
My sweet little charmer  
I wanna give you all of my body  
But my loneliness fucks me better than you do

There was a time I needed you  
And I would die for you  
I gave you every heartbeat  
What did you give to me?  
What did you give to me?  
I can't keep holding on  
I can't keep holding on and on and on

My darling, my lover  
How I love you, how I miss you  
But my solitude loves me better than you do  
My sweet little charmer  
I wanna give you all of my body  
But my loneliness fucks me better than you do

Sensitive, you say I'm too sensitive  
Now darling you're misreading things  
I just finally give a shit  
About my own heart  
About my own life  
And I can't keep holding on  
I can't keep holding on and on and on

My darling, my lover  
How I love you, how I miss you  
But my solitude loves me better than you do  
My sweet little charmer  
I wanna give you all of my body  
But my loneliness fucks me better than you do

I wanna go hard, I wanna go hard  
I wanna go hard, I wanna go hard  
I wanna go hard
