

# Are You With Me Now?

The Dykeenies

I looked at you and I thought it  
I looked at you and our eyes met  
It's not like you didn't notice  
It's not like you could forget

I looked at you and I wonder  
Where is we're running off to now?  
And then we both took something  
To help us ease the night in

Are you with me?  
Are you with me?

Lights are fading, everything's changing  
Hours are turning long  
Where did it all go wrong?  
Where did it all go wrong?

Is it that you didn't notice?  
Is that you on the tip of my tongue?  
On the tip of my tongue  
Is it you that's got me  
So awake for so long  
Been awake for so long

Are you with me now?  
Are you with me now?

Lights are fading, everything changing  
Hours are turning long  
Where did it all go wrong?  
Where did it all go wrong?  
Lights are fading, everything changing  
Hours are turning long  
Where did it all go wrong?  
Where did it all go wrong?

Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you with me now?  
Are you with me? (Are you with me now?)  
Are you with me now?  
Are you with me now?  
Are you with me now?

Lights are fading, everything changing  
Hours are turning long  
Where did it all go wrong?  
Where did it all go wrong?  
Lights are fading, everything changing  
Hours are turning long

Where did it all go wrong?  
Where did it all go wrong?

Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?  
Are you fading in and out?
