

Are You With Me Now?

The Dykeenies

I looked at you and I thought it
I looked at you and our eyes met
It's not like you didn't notice
It's not like you could forget

I looked at you and I wonder
Where is we're running off to now?
And then we both took something
To help us ease the night in

Are you with me?
Are you with me?

Lights are fading, everything's changing
Hours are turning long
Where did it all go wrong?
Where did it all go wrong?

Is it that you didn't notice?
Is that you on the tip of my tongue?
On the tip of my tongue
Is it you that's got me
So awake for so long
Been awake for so long

Are you with me now?
Are you with me now?

Lights are fading, everything changing
Hours are turning long
Where did it all go wrong?
Where did it all go wrong?
Lights are fading, everything changing
Hours are turning long
Where did it all go wrong?
Where did it all go wrong?

Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you with me now?
Are you with me? (Are you with me now?)
Are you with me now?
Are you with me now?
Are you with me now?

Lights are fading, everything changing
Hours are turning long
Where did it all go wrong?
Where did it all go wrong?
Lights are fading, everything changing
Hours are turning long

Where did it all go wrong?
Where did it all go wrong?

Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
Are you fading in and out?
