

## Fake Do-Gooders

The Eames Era

And if you think that you could do better  
She's got some pretty wise sage advice for you if you'd  
let her  
'Cause she's been keeping tabs on all the things that  
you do  
And she's been keeping close eye on you

And she'll let you know  
We never go in the heat of competition  
Tell me everything you know about the human condition  
And wave to the meter maids who are doing their job  
And they're calling the cops 'cause they're fake do-  
gooders  
Makin' [indecipherable]

And when you smile that's a gene I never got  
And the way your hair stays in place, I should be  
jealous but I'm not  
I just go right back where I think I should be  
You said that's all right with me

'Cause I tell you when  
We never go in the heat of competition  
Tell me everything you know about the human condition  
And wave to the meter maids who are doing their job  
And they're calling the cops 'cause they're fake do-  
gooders  
Makin' [indecipherable]

Ba ba ba da ba da ba da ba  
Ba ba ba da ba da ba da ba...

We'll let you know  
We never go in the heat of competition  
Tell me everything you know about the human condition  
And wave to the meter maids who are doing their job  
And they're calling the cops 'cause they're fake do-  
gooders  
Makin' [indecipherable]

We never go in the heat of competition  
Tell me everything you know about the human condition  
And wave to the meter maids who are doing their job  
And they're calling the cops 'cause they're fake do-  
gooders  
Makin' [indecipherable]
