

Talk Talk

The Eames Era

Talk talk all you ever say is walk walk walk
Does it make it right I don't wanna say, I don't wanna be
your afternoon
Wanna be your night
Blah blah blah
I've been a bad girl I know
I've been playing with the right deck in my left hand
And if it means that I'm where I'm meant to be
Right smack in between the left and right field
If I made a mistake I'll apologize for the last meaning
Blah blah all you ever do is do is talk talk talk

Does it make it true, I don't wanna be
I don't wanna say that you were right
Wanna say you're true, blah blah blah
I've made mistakes now I know
I've been playing with the right deck in the left hand
And if it means that I'm where I'm meant to be
Right smack in between the left and right hand
If I made a mistake I'll apologize for that last reading
I've been a bad girl I know
I've been playing with the right deck in the left hand
And if means that I'm where I'm meant to be
Right smack in between the left and right hand
If I made a mistake I'll apologize but I'll never mean it
