

# The One That You Hated

The Early November

Is it my fault? (if it was planned, then yes, it was)  
Well then because of me your selfishness ruins everything.

Well if every moment always counts for something, then we lost  
this running around.

All these settings never change for better; I sent you a place  
and time.  
I thought you could use it to learn how to love your worst desp  
ite.  
I sent you down with that kid.  
The one that you hated, I thought you could raise him just like  
you.

I can change this I swear, now that's just the voice of all you  
r fear.  
No that's not quite it (don't talk). I promise I'll build it tw  
ice the best.  
(Your promise to build is tired and pit-less)  
Well with all your money, power, give solutions like this.

And all these settings never change for better; I sent you a pl  
ace and time.  
I thought you could use it to learn how to love your worst desp  
ite.  
I sent you down with that kid.  
The one that you hated, I thought you could raise him just like  
you.

Then bring him back to me exactly how you wanted him to be.

All these settings never made it better; I sent you a place and  
time.  
I thought you could use it to learn how to love your worst desp  
ite.  
I sent you down with that kid.  
The one that you hated, I thought you could raise him just like  
you.
