Can't Find Love

The Easybeats

Once I had a feel for lovin'
Had the world at my command
Then I thought I found a true love
And when she left I blew my mind
Every time I finally get myself in line
You know I can't find love

Every night I feel like dyin'
Wanna hold my head and cry
Lord knows that I'm always tryin'
But women seem to pass me by
Every time I finally get myself in line
You know I can't find love

(Can't find love)
(Can't find love) no I can't
(Can't find love) can't find love
(Can't find love)
Every time I finally get myself in line
You know I can't find love

Once I had a feel for lovin'
Had the world at my command
Then I thought I found a true love
But when she left I blew my mind
Every time I finally get myself in line
You know I can't find love

I can't find love
I can't find love, no no no no
(I can't find love)
(I can't find love)
Well every time I finally get myself in line
You know I can't find love

You know I can't find love
(Can't find love), no no no no
(I can't find love) I can't find
(I can't find love) no no no
(Can't find love) I can't find
I can't find love
