

Come in You'll Get Pneumonia

The Easybeats

My, my, look who's at the door
Standing in the rain
It's you, and I thought you'd gone

All right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
When you left me at the station
Don't make yourself at home here
You knows you ain't staying
You telephone your mother
And tell her where to reach ya
And come and get you in the morning
But not to bring a preacher

I said all right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
When you left me at the station

I said all right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
When you left me at the station

My, my, what you waitin' for
What you crying for
Aw girl, left me the rain

All right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
When you left me at the station

I said all right, come in you'll get pneumonia
You telephone your mother
And tell her where to reach ya
And come and get you in the morning
But not to bring a preacher

I said all right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
When you left me at the station

I said all right, come in you'll get pneumonia
You can stay until the morning
And then you goes your own way
You know you let your chance go
