

I Wonder

The Easybeats

I wonder where the flow'rs have gone
I wonder where the birds have gone
I wonder where you have gone...

I wonder where the stars have gone
I wonder where the moonlight's gone
I wonder where you have gone...

Since you left me I feel blue
I don't know what to do
My life is empty now
Now you're still gone, oh...

I wonder where the flow'rs have gone
I wonder where the birds have gone
I wonder where you have gone...

Since you left me I feel blue
I don't know what to do
My life is empty now
Now you're still gone, oh...

I wonder where the flow'rs have gone
I wonder where the birds have gone
I wonder where you have gone...
