

## Then I'll Tell You Goodbye

The Easybeats

When I see you walk, I just go out of my head  
I'd rather have a love than have your love instead

You and I can see we could never be  
So then I'll tell you goodbye

You've done something that I can never forgive  
I'll still remember it just as long as I live

You and I can see we could never be  
So then I'll tell you goodbye

You'll never be the right one for me  
So I'll just go on home

When I see you walk, I just go out of my head  
I'd rather have a love than have your love instead

You and I can see we could never be  
So then I'll tell you goodbye

You'll never be the right one for me  
So I'll just go on home

You've done something that I can never forgive  
I'll still remember it just as long as I live

You and I can see we could never be  
So then I'll tell you goodbye

Then I'll tell you goodbye  
Then I'll tell you goodbye
