

## What in the World

The Easybeats

One lonely guy, who lost the way  
Among the dreams, of yesterday  
Amidst the memoires, so full of fun  
I try to find out what  
What I did wrong

Was I so fool enough  
To close my eyes  
It took me long enough  
To realise, oh

What in the world's come over you baby, what in  
What in the world's come over you darlin', what in

Let me tell ya  
I can take loneliness, get over being depressed  
But not, not all your lies, no ho ho woah ho

On christmas eve, you couldn't call  
Or could that be, you had to stall  
Was he with someone new, up in the light  
Did you go somewhere else, to spend the night  
Oh how you changed so much, in every way  
I can't have you like this, that's why I say, oh

What in the world's come over you baby, what in  
What in the world's come over you darlin', what in

Now let me tell ya  
I can take loneliness, get over being depressed  
But not, not all your lies, no ho ho woah ho

What in the world's come over you baby, what in  
You don't love me no more  
What in the world's come over you darlin', what in  
Yes I'm not really sure  
What in the world's come over you baby, what in  
You don't love me no more  
What in the world's come over you darlin', what in  
Said I'm not really sure  
What in the world's come over you baby, what in
