Where Old Men Go

The Easybeats

And he retires before his fire
And pulls his rug close to him
The old man dreams his only dream
Of where he goes finally

Where there's no rain
Where there's a sun shining
Where old men go finally

He feels the night of all his life
Gradually slide over him
The old man sighs, closes his eyes
And lives his dream finally

Where there's no rain
Where there's a sun shining
Where old men go finally

This means more than life to him

Where there's no rain
Where there's a sun shining
Where old men go finally

Where there's no rain
Where there's a sun shining
Where old men go finally...
