

You Said That

The Easybeats

She would break my heart, little girl
You said that
Told me from the start, little girl
You said that

No, no, no, no, no...
Told me from the start, little girl
Did you get a smile, little girl

You said that, oh
You said that

We were just not right, little girl
You said that
Always stoppin' fights, little girl
You said that

No, no, no, no, no...
Always stop the fights, little girl
Don't you think it's right, little girl

You said that, oh
You said that

When I call her name
Doesn't feel the same
Try to hold her tight
Every single night

Now it makes me wild, little girl
You said that
She was just a child, little girl
You said that

No, no, no, no, no...
She was just a child, little girl
Playing all the while, little girl

You said that, oh
You said that

When I call her name
Doesn't feel the same
Try to hold her tight
Every single night

Now it makes me wild, little girl
You said that
She was just a child, little girl
You said that

No, no, no, no, no...
She was just a child, little girl
Playing all the while, little girl

You said that, oh
You said that, oh

You said that, oh
You said that
