

# Trip Round the World

The Elected

Every thought I had, I had for you  
All the dreams that I had live about you  
Every penny I make, I make them for you  
A schedule that I break, I break it for you.

Ohh you, you be you  
Went out with a girl made believe she was you uhh  
I took a trip around the world just to get back to you  
Ohh you, you  
I chase women, I chase money and nothing seem to do  
Then finally I found you.

Oh you, you be you  
I chase money, I chase women  
But nothing seem to do  
Then finally hour delivered and I can see the true  
When finally I found you yeah finally  
I found you, yeah finally, I found you.
