

# When I'm Gone

The Elected

There is a .. down below  
you want to go  
you were left in heaven  
I have been picturing the other side  
no one wants to die...  
pack it up leave it .. blind ..

I can't see you again  
see you again see  
I can't see you when I am gone  
I can't see you see you again  
see you  
can't you see?  
I am gone

there is a fire down below ..  
what you want to know ..  
looking at history  
so it seems  
I open .. time  
I don't know ..

I can't see you again  
see you again see  
I can't see you when I am gone  
I can't see you see you again  
see you  
can't you see?  
I am gone  
...  
I can't see you again  
see you again see  
I can't see you when I am gone  
I can't see you see you again  
see you  
can't you see?  
I am gone
