

# It's Not Fair

## The Emotions

It's not fair  
For the world to pass me by  
And I stand cautiously aside  
As though I'm shy

They say it's right for a girl  
To stay in line  
And keep her name from  
Dragging through the grapevine  
When a boy can live any life  
Run around  
There is nothing he can do  
That will keep him down

No  
It's not fair

Now if justice plays  
Such an important role  
In a girl's rights  
Who has lots of soul  
Then the time will come  
When this rule will lag  
Gving me a chance  
To come out of my bag

No  
It's not fair

It's not fair  
If I can't go where I wanna go  
It's not fair  
If I can't do what I wanna do  
Guys and gals all around me  
They all sound me  
The tell me what's mine is mine  
If I wanna share it  
Then alright fine  
It's not fair  
And I ain't gonna by this mess  
About a good girl

I understand [?]  
That every girl wants pride  
But this gap between good and bad  
Is very wide  
Just as sure as God made  
Boy to love girl  
Makes me know I'm to get  
Some part of this world

No  
It's not fair

It's not fair  
It's not fair  
It's not fair

And I ain't gonna by this mess  
About a good girl

It's not fair  
If I can't go where I wanna go  
It's not fair  
If I can't do what I wanna do  
Guys and gals all around me  
They all sound me  
The tell me what's mine is mine  
If I wanna share it  
Then alright fine

It's not fair  
If I can't go where I wanna go  
It's not fair  
If I can't do what I wanna do
