

## Our Time

## The Enemy

In the night, the heat is on  
In the morn, you will be gone  
But for now, I'm by your side  
Counting every breath tonight

We've been waiting for the longest time  
Makes me feel electrified

Now, this is our time  
And I never ever ever want it to end  
Now, this is our time  
And I never ever ever want it to end

It's a fever, it's a burning hour  
Every minute, every waking hour  
It's too hot, too hot, to sleep  
Makes you tremble, makes your fingers weak

We've been waiting for the longest time  
Makes me feel electrified

Now, this is our time  
And I never ever ever want it to end  
Now, this is our time  
And I never ever ever want it to end

It's this feeling, got me believing  
It's this feeling, I can hear you breathing  
It's this feeling, come and believe it now  
It's this feeling, you got me believing  
Oh!

Now, this is our time  
And I never ever ever want it to end  
Now, this is our time  
And I never ever ever want it to end
