

## Pressure

### The Enemy

Pressure, pressure, step into the pressure zone  
Let the pressure, let the pressure get you better  
Keep a, measure, measure on your pressure  
Better check the pressure, watch out for the pressure!

Take a little walk outside  
To see you now  
Pressure let it all sip away

Working nine to five she was a dancer  
She's got it in her mind  
She has the answer now  
Oh that she's always a show  
To make your breathe go faster

Working nine to five she was a dancer  
She's got it in her mind  
She has the answer now  
Oh that she's always a show  
To make your breathe go faster

Pressure, pressure, step into the pressure zone  
Let the pressure, let the pressure get you better  
Keep a, measure, measure on the pressure  
Better check your pressure, watch out for the pressure!

Working nine to five she was a dancer  
She's got it in her mind  
She has the answer now  
Oh that she's always a show  
To make your breathe go faster

Working nine to five she was a dancer  
She's got it in her mind  
She has the answer now  
Oh that she's always a show  
To make your breathe go faster
