

# So Much Love

The Enemy

You're the forbidden fruit  
You're the one I can't have  
You are the unknown pleasure  
I can't hold in my hands

I got so much love  
I got so much love  
I got so much love I could give  
And these dreams of love  
All these dreams of love  
In these dreams of love I can't live

Do you feel, do you feel what I do?  
Is it real, if it's real I'm with you  
Hold me closer, hold me closer  
Want you to show me the way  
If love is the answer, love is the answer  
Then I want love to stay

You're the Bonnie to my Clyde  
You are the sun to my rain  
You're so far beyond reach  
That pursuit of pleasure only means pain

I got so much love  
I got so much love  
I got so much love I could give  
And these dreams of love  
All these dreams of love  
In these dreams of love I can't live

Do you feel, do you feel what I do?  
Is it real, if it's real I'm with you  
Hold me closer, hold me closer  
Want you to show me the way  
If love is the answer, love is the answer  
Then I want love to stay

I was blind now I can see  
Save a space a space for me  
Keep me hanging by a thread  
Keep you locked inside my head

Do you feel, do you feel what I do?  
Is it real, if it's real I'm with you  
Hold me closer, hold me closer  
Want you to show me the way  
If love is the answer, love is the answer  
Then I want love to stay
