Some Things

The Enemy

It's just a day
But it's ours and no one can take it away
To say those words
I do, I want you, I want you, I do

Some things are old
Some things are new
Some things are borrowed
Some things are blue
Some things are slow
Some things are fast
Some things are set in stone, made to last
And we kiss and we dance and we dance and we kiss
And we kiss and we dance and we dance and we kiss

Just hold me now
I can feel your heart beating next to mine
Don't let me go
I do, I want you, want you for a lifetime

Some things are old
Some things are new
Some things are borrowed
Some things are blue
Some things are slow
Some things are fast
Some things are set in stone, made to last
And we kiss and we dance and we dance and we kiss
And we kiss and we dance and we dance and we...

You feel it in your bones
You feel it in your soul
To never let it go

And we kiss and we dance and we dance and we kiss
And we kiss and we dance and we dance and we kiss

Some things are old
Some things are new
Some things are borrowed
Some things are blue
Some things are slow
Some things are fast
Some things are set in stone, made to last
