The Enemy

Moving on a highway
101 degrees
I'm going nowhere fast
But I got nowhere to be
Let the others worry
I don't have a care
I got the radio on
And the wind in my hair

My lungs are fit to burst
And my heart is a beating drum
Now watch me run

It's alright
It's golden
Superhero
Tryna hold on
Keep it moving
It's out there
Superhero
With the wind in my hair

Your money can't buy my happiness
My happiness is not for sale
I've got a spring in my step
And a gale force wind in my cells

My lungs are fit to burst
And my heart is a beating drum
Now watch me run

It's alright
It's golden
Superhero
Tryna hold on
Keep it moving
It's out there
Superhero
With the wind in my hair

With the wind in my hair
It's alright
It's golden
Superhero
Tryna hold on
Keep it moving
It's out there
Superhero
With the wind in my hair

Superhero
With the wind in my hair
